## ESTABLISHED 1975 AND MADE IN THE UK

We believe that you shouldn't have to compromise when it comes to your dream kitchen. That's why we are so proud of our heritage; from using second hand machinery to manufacture furniture for family and friends, to now having a 70,000 sq. ft. factory with over 220 staff. It's our attention to detail and passion for what we do that has helped shape our unique and quintessential range of furniture collections.

## AWARD WINNING KITCHENS

With over 18,000 different cabinet configurations and such a wide and varied range of furniture to choose from, it's no wonder we have picked up some awards along the way.

Choice is at the heart of every Masterclass kitchen design. With 10 ranges, 62 colours and 115 possible options, the journey to creating your dream kitchen begins here...

## IT STARTS WITH A CONVERSATION

We only supply our furniture through a network of approved and appointed kitchen specialists, who have the knowledge and skills to ensure you get the very best from your Masterclass Kitchen.

# LET'S TALK ABOUT COLOUR...

## CHOOSING YOUR PERFECT COLOUR, TEXTURE AND FINISH

- Step 1** - Our Warm and Cool palettes offer you the perfect starting point for your journey. Choose to design a neutral scheme by mixing, matching or contrasting your favourite warm or cool tones, or alternatively, style your kitchen using your favourite base colour and then add a statement colour, textured finish, or both to really pack a punch.
- Step 2** - Be bold and embrace your favourite statement colour which will add a real sense of flair and excitement into your design and ensure your kitchen stands out from the crowd. A perfect way to personalise your new kitchen and living space.
- Step 3** - Finally, choose to add another dimension to the kitchen by introducing a textured element to the design such as stone, marble, timber or a metallic effect finish, which will add a real sense of glamour to the project. A number of these are also available as matching work surfaces, splashbacks and upstands, as shown in the range finder at the back of the brochure.

Please remember that whilst every care is taken to accurately represent the colours in this brochure, as a result of variables in the photographic and printing processes, they may vary from the actual product. The best way to make your final decision on colour and finish is to visit your local retailer who can provide actual samples. Also, as wood is a natural material, the colour, pattern of the grain and the finish may vary. E&OE.
